Everything's available. Not like most other turn-based battles, Your opponents just wait until you finish the line so that they can perform theirs. A Heroes & Magic, concurrent turns would happen even if you didn't want to finish your turn. And while you're deciding what to do with your army, the enemy can take advantage and attack you first. That's why it's important to make quick and accurate decisions so you can outse your enemies. There will be tons of different units to customize your formations. You can't go on aggressive ways to attack your enemies front-on with powerful melee units like knights, Calvary, and more. Or you can choose a more conservative approach to Archers and Catapults.It's all to you to decide, and largely depends on the enemy's compositions. As you have many battles and gain a certain amount of experience, you can level up your heroes and gain new powers. This would make the heroes more capable of future battles, giving more advantages to the enemy. Plus, every unit in your army can be leveled up as their experience grows. There are tons of different upgrades that you can choose for them to make them more capable. You can also equip them with gears and weapons to make them stronger. In addition, there are also more than 30 different units for you to recruit and command. Each has its own powers and abilities, so be sure to optimize them to get the benefits. In SpellForce Heroes & Magic, where different species live together, there are three large species who all want to unite empires and put other species under their control. You can choose between orks, humans, or dark elves to fight their enemies and lead them to their final victory. In addition, there are also 6 different neutral species that are either allied or enemies. Befriend them to gain valuable allies in battles. But if you think you just can't stand them, be sure to eliminate them before they can join the enemies and the intimidating enemies in battles. The game features beautiful 3D graphics, stunning landscapes, detailed maps, and realistic characters. You'll feel like you're lost in the world of magical beings. In addition, the game is also extremely smooth as the average FPS always stays above average. This allows for smooth and consistent play without lags. Powerful shots, metal clashes, and massive explosions would take you to a real battlefield where things can change drastically in matters in seconds. Make sure you think fast before the enemy is overrun by the army. APK to install on your device. Expand the OBB file to /Android/obb/com.hg.spellforce.
